**The Vegan Burger comes close to
the taste and texture of meat.
The base? Just soy and wheat!
In fact, many taste and you'll feel no
difference at all.**

**The Vegan Burger is uncooked.
During and after baking, the burger
retains juiciness.
The taste is meaty and savor.**

How are we going to present this burger? During the IFFA '19 we'll serve this burger on a classic burger bun, with a delicious homemade tomato relish, piccalilly sauce, lettuce, pickle and onion. Sounds great, right? Join us at the IFFA '19 and experience yourself that it also tastes great!
